## Personal Injury Services:

Our expertise is available to clients and professionals throughout the United Kingdom. Our service proposition is of the highest standard. This gives clients and professional connections the peace of mind that they are receiving the right advice and service to

### Personal Injury Trusts

Many personal injury claimants are in receipt of welfare benefits at the point of receiving damages; others may be eligible in the future. If they do not receive appropriate advice about the use of Personal Injury Trusts, their benefits may be affected when they receive their damages. Legal advisers have a duty to inform claimants of the option to set up a Trust in order to protect their benefits situation.

We can assist by providing a free written assessment for all clients, and then if viable, arrange a suitably worded Trust Deed, establish their Trustee Bank Account and deal with the Local Benefits Agency both now and in years to come.

### Investing Personal Injury Damages

Investing a lump sum and implementing a robust strategy can be daunting. The difficulties are further exacerbated where capital has come from an award of personal injury damages. Many personal injury claimants simply do not have the option to earn a living; their damages award is vital to their future financial wellbeing. As circumstances change over a lifetime, investment plans need to adapt accordingly

### Periodical Payments

We have built an enviable reputation in dealing with Periodical Payments for future losses for personal injury damages. We have built our expertise acting for both claimants and defendants in high value claims. Periodical Payments are far from straightforward and we offer expert witness services to assist in this complex area of law and financial planning.

### Trustee Investment Advice

We offer a unique and bespoke approach towards investing money on behalf of trustees. We are highly experienced, and proud of the clientfriendly professionalism that we bring to our work. Not only do we act for many lay Trustees, but we are also instructed in investment matters by many professional Trustees who value our services.

### Court of Protection Investment

We offer an expansive range of services for Protected Beneficiaries and their Deputies. Many of our Court of Protection clients are referred to us via their legal advisers and we also act in many cases where a professional deputy has been instructed. We also have experience of dealing with applications, budgets, cash-flow planning, carer cover and family care payments.

### Accountancy Services

This unique service is dedicated to dealing with the accountancy needs of those who have received personal injury damages. Our aim is to provide peace of mind to personal injury damages recipients and their professional advisers regarding ongoing obligations to HMRC and other institutions.

It offers Tax Returns, Office of the Public Guardian Annual Returns, Trust Account records and Family Care Payment tax advice.

### Welfare Benefit Advice

Our specialist benefit advice service aims to ease the burden of claiming benefits for clients having to navigate the complex welfare system for the first time. In addition to protecting damages for Personal Injury, we offer a benefit 'health-check' service to ensure that our clients are receiving every penny to which they are entitled. Our Welfare Benefit Consultant provides representation at appeals and Tribunal hearings, assisting to overturn unjust decisions, by applying expert knowledge of welfare benefit law.
